PROFESSIONAL SUMMARY

Innovative AI & Software Engineer with 4+ years of experience in developing cutting-edge machine learning solutions for manufacturing environments. Proven track record in automation, achieving 100% process automation in reporting systems and network monitoring solutions. Expertise spans from infrastructure support to advanced AI implementation, with strong cross-cultural collaboration skills and a passion for transforming theoretical AI concepts into practical industrial applications.

PROFESSIONAL EXPERIENCE

AI & Software Engineer

Dunlop Tyres (SRSA) – Ladysmith Plant

Apr 2024 – Present | Manufacturing, Ladysmith

Design and develop software systems supporting plant operations using SQL databases, SCADA platforms, MES TrakSYS, and HMI installations. Lead AI and data engineering initiatives leveraging Python and machine learning to enhance operational efficiency and predictive maintenance.

Web Developer

NZ Accountants

Apr 2022 – Mar 2024 | Financial Services, Durban

Led web application development and server administration. Created advanced Excel formulas for financial dataset automation and analysis, delivering business intelligence insights.

IT Technician

Careers IT

Feb 2021 – Jan 2022 | IT Services, Durban

Provided comprehensive technical support including software installation, system updates, and IT infrastructure maintenance across multiple client sites.

KEY INNOVATION PROJECTS

• Factory IP Management & Network Monitor

Advanced system tracking 800+ devices with real-time monitoring and automated reporting.

• Smart Tire Test Report Parser

AI-powered parser achieving 100% automation in PDF report generation and SQL database integration.

• SRSA Fleet Management System

Enterprise platform with vehicle booking, driver management, and route optimization.

• Internal AI ChatBot on MS Teams

On-premise plant assistant for IP retrieval and system documentation via voice commands.

LANGUAGES

English: Fluent
Zulu: Native

EDUCATION

Bachelor of ICT - Honours

Machine Learning & Software Engineering

Durban University of Technology | 2023

Advanced Diploma in ICT

Software Engineering

Durban University of Technology | 2022

Diploma in ICT

Applications Development

Durban University of Technology | 2018-2020

CERTIFICATIONS

- Microsoft Azure AI Fundamentals (AI-900)
- AI Engineering Course (AI-102)
- Azure Fundamentals (AZ-900)
- MITRE ATT&CK Defender (Cybrary)
- Cisco Networking Essentials
- Cisco Introduction to Cybersecurity

CORE TECHNICAL SKILLS

AI & ML	Infrastructure	Development
Python, TensorFlow, Scikit-learn, LangChain, Pandas	Windows Server, Linux, Network Configuration, Cisco/HP Switches	JavaScript, C#, SQL Server, Node.js, React

KEY ACHIEVEMENTS

- 2nd Place - MTP Presentations at Dunlop
- Achieved 100% automation in reporting systems
- Successfully managed 800+ device network infrastructure
- Delivered 6 self-driven innovation projects
